

AUXILIARY EQUIPMENT

RHINO

Floor saws

The RHINO floor saws series from ENAR is primarily distinguished by its superior cutting performance in asphalt and concrete, making them the fastest and quietest in its class.

Moreover, the RHINO series offers the lightest devices in its category.

- Very easy removable, 30L water tank, with integrated mesh/filter to avoid dirt from entering
- Solid rubber wheels (160mm front, 200mm rear)
- 4-point rubber dumper system to reduce vibrations for the user
- Double sided water cooling for efficient blade cooling and effective wet cutting, avoiding dust generation
- Integrated belt tensioner on the frame for quick belt tension adjustment and/or replacement
- Intuitive cutting depth adjustment via handle and indication
- Easily foldable and clearly visible cutting line wheel
- Massive robust frame to ensure high cutting precision

Technical Data

MODEL	Weight (kg)	Max. cutting blade size (mm)	Max. cut depth (mm)	Speed (rpm)	Engine	Product dimensions (mm)	Brake system	Air filter
RHINO 350GL	83	350 x 25.4	120	2,500	ENAR G210FA 4.4 kW / 3,600 rpm	1220 x 505 x 880	No	3-stage cyclonic
RHINO 500GL	105	500 x 25.4	195	2,500	ENAR G420FA 9.2 kW / 3,600 rpm	1250 x 505 x 1000	Yes	2-stage cyclonic

1 universal cutting blade included per product (350mm for RHINO 350GL; 500mm for RHINO 500GL)
