

SPRAYSTRIKER™ 250TR - SERIES SPRAYER

250 L DE-ICING SPRAYER FOR TRACTORS

The 250TR-Series de-icing sprayer is with a high performing 12V pump specially designed for de-icing liquids. The sprayer is designed to compact tractors / loaders for use on pathways and other narrow areas. It can also be installed in flatbed pickups. The tank is in polyethylene and body is made of mild steel with zinc base and powder painted finish.

The Hilltip SprayStriker™ sprayer unit is delivered and controlled with StrikeSmart™ Smartphone App (Phone included). The SprayStriker™ can be equipped with 12m hose reel, 3 different widths of spraybars, as well as individually in-cabin controlled side-nozzles for increased spray width.

The sprayer unit can also be equipped with disinfection nozzles on both handheld and spray bar nozzles, to fight germs, bacteria and viruses.

SprayStriker™ 250TR
