ICESTRIKER™ 380 STAINLESS STEEL SPREADER

380 L STAINLESS STEEL SPREADER FOR PICKUPS

The **IceStriker™ 380 stainless steel spreader** is buit to meet the requirements of the European light-pickup segment. Thanks to the convenient size of the spreader, it **fits most kinds of pickups.** This device is perfect for spreading at parking lots, courtyards, walkways and pedestrian paths.

The high quality stainless steel hopper body guarantees a **longlasting corrosion-free use**. The hopper surface is easy to clean and maintain, and provides a smooth material flow. The spreader is designed for spreading bulk sand and gravel, bulk/bag salt, sand-salt mixes and fertilisers. Can optionally be equipped with **pre-wet kit**.

STANDARD FEATURES

- **HTrack™ 2-way online tracking & control system** (see page 35)
- **StrikeSmart™ controller** with automatic GPS speed control adjusts the amount of spreading material (g/m^2) according to your vehicle speed (see page 34)
- A 12-volt motor is mounted inside a sealed weather -resistant enclosure and requires no pulleys, sprockets, belts or chains
- Automatic vibrator prevents bridging and de-icing material from clogging by shaking the inverted Vee
- The 65 mm stainless steel auger gives you an even flow of material to the spinner
- Inverted-Vee helps reduce heavy start-up loads on the auger. All in stainless steel.
- Two-piece tarp mechanism prevents spillage off into truck bed when filling the spreader
- Top screen prevents rocks and big material chunks from getting into the hopper
- Flip-up stainless steel chute
