

SNOWSTRIKER™ 1450-2600 STRAIGHT BLADE & V-PLOW

SNOWSTRIKER™ 1450-2600 SNOWPLOWS FOR UTVS

The SnowStriker™ 1450–2600 SUTV/VUTV straight blade and V-plow for UTVs is the first plow of its kind built in Europe. The Hilltip Quick Hitch mount makes this **easy on-and-off snowplow** compatible with most UTVs on the market.

PLOW DESIGN

The curved, powder-coated blade is made of high-strength steel, which in this case is the key to our durable but light plow. Two segmented cutting edge with trip springs protects the plow and vehicle from impact when hitting obstacles. The cutting edge is available in polyurethane or steel.
