

# HILLTIP HWA 5-9 WATERING ARM

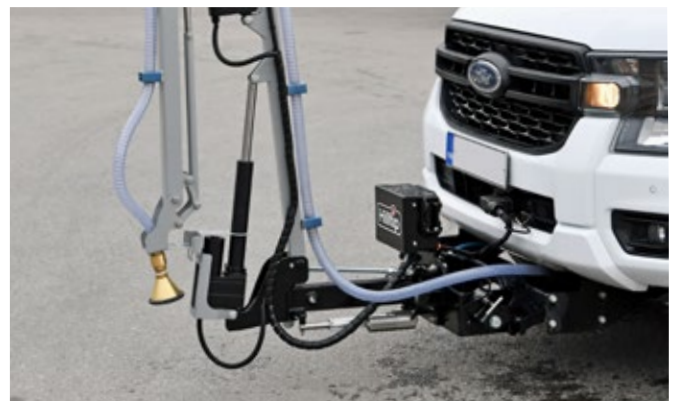

## HILLTIP HWA 5-9 WATERING ARM FOR PICKUPS

*HWA-5 watering arm*

The Hilltip HWA-5-9 watering arm is designed for use on pickup trucks in combination with the Hilltip SprayStriker™ or other sprayer systems, providing an efficient solution for watering and dust control.

The HWA-5 watering arm provides a reach of **up to 5 m** (including arm length and water spray), enabling wide-area coverage with minimal repositioning. The **working height of the HWA-5 is 2,7 m** above ground level, while the **transport height is 1,83 m**, allowing for safe and convenient movement between job sites.

Available models include: HWA-5, HWA-7, and HWA-9.

*HWA-5 watering arm with Hilltip quick-hitch mounting system*
