

WASP

Metal Detector

The WASP metal detector/box locator has become one of the industry's most established detectors for the location of valve covers, stop tap boxes, etc. Its simplicity of use, rugged reliability and low cost have been the reasons for its huge success.

Detection Range - 10cm x 10cm box cover: 30cm deep
Larger objects: Down to 80cm

- Specifications**
- Operates from single 9v PP3 battery
 - Two simple tuning controls
 - Built-in loudspeaker
 - Headphone socket

WASP II

Metal Detector

The WASP II has been designed to detect metal objects deeper while making operation of the detector extremely simple. Its self-tuning circuitry continually adjusts itself for optimum detection and is highly sensitive to all metals.

Detection Range - 10cm x 10cm box cover: 50cm deep
Larger objects: Down to 1 metre

- Specifications**
- Operates from single 9v PP3 alkaline battery
 - Single tuning control
 - Switch for automatic or manual retuning
 - Pinpoint pushbutton
 - Fully waterproof concentric search coil
