Product short description:

The brand new **SOPPEC DRIVER™ Line marking trolley** is **the best on the market**: through its stability, its simplicity and its unique design, it secures straight lines on smooth or textured grounds, indoor and outdoor. The **SOPPEC DRIVER™ Line marking trolley** really « drives » the user. It uses exclusively with the **SOPPEC TRACING® PRO paint aerosol** cans and benefit from the **SOPPEC PureSPRAY™ system**.

Product description:

SOPPEC DRIVER™ LINE MARKING TROLLEY : **BECAUSE A LINE MARKING TROLLEY** **SHOULD FIRST TRACE STRAIGHT...**

The **SOPPEC TRACING® PRO Floor Line Marking Paint** was designed to secure workplace safety through safety signage compliance, for **yourself**, your **employees**, your **visitors** and **clients**.

THE SOPPEC DRIVER™ LINE MARKING TROLLEY **HAS MANY ADVANTAGES**

- The low profile design and the central position of the drawbar provide a **strong stability** , and **minimize the user interferences** during the application. It can be used **either on smooth (concrete) or uneven surfaces (asphalt)**.
- The wheels with wide tread (32 mm) and long wheelbase **secure straight running**.
- The **spray zone is sheltered and optimized** so that the **sprayed paint is not disrupted** . A **wind shield** (Optional) further increases protection in case of challenging weather conditions.
- The ad hoc design provides the user with a **clear seight of the marking target and of the line marking area**.
- The **compact shape** allows markings up to 60 mm of a frontal obstacle and 79 mm of a side obstacle
- The **marking width is adjustable continuously from 5 to 12 cm**.
- The **trolley set up is done with no tools** : you just need to position the drawbar and the aerosol holder, and to tighten the 2 fixing nuts by hands.
- The **SOPPEC DRIVER™ trolley** can be **convertible into a Tape Applicator** (Conversion kit available in September 2021).
- The aerosol can positionning is very intuitive thanks to the **exclusive SOPPEC PureSPRAY™ nozzle holder**.
- One spare aerosol can shall be stored in its slot to allow **180 m auntonomy on smooth surface for 75 mm wide line**.
- **Storable in a minute**, you can swing the trolley on its front side with the back handle and set up the drawbar backwards.

CONVERTIBLE

The SOPPEC PureSPRAY™ system stands for the very best of TECHNIMA 's expertise within the area of aerosol marking paint.

It is the very unique combination of a paint formulation with more pigments, the exclusive design of the combo « aerosol + spray nozzle + trolley » which secures a pure line, with no need of flanges or other tweaks to keep the line edge quality under control.

The trolley does not require cleaning after use.

The pressure level within the aerosol can along with the spray system were designed to provide fast and high coverage marking. The Optimal Application Speed of the **SOPPEC PureSPRAY™** system is the highest on the market.

Using the **SOPPEC DRIVER™** application trolley and the **SOPPEC TRACING® PRO** paint spray cans, you proceed with 500 m within 30 minutes, and you don't have to clean the equipment.

The SOPPEC PureSPRAY® system is providing you with a precise marking with no side-spray.

It is **40% faster** to use than its closest competitor.
